## Course Description

**STUDIO** is an English-speaking evening acting course designed for adults at **all stages of their acting journey**, from beginners taking their first steps to experienced actors seeking to refine and maintain their craft.

This 8-week course offers a **professional studio environment** where each actor is met at their current level. The coach adapts exercises, scene work, and feedback according to individual experience, allowing beginners to build strong foundations while more experienced actors deepen and sharpen their technique.

Drawing from **Lee Strasberg, Meisner, and Uta Hagen**, the course focuses on truthful performance, emotional connection, and practical acting tools for stage and screen. Each block of training culminates in the rehearsal and presentation of the prepared monologues and scenes during an **in-house presentation** in the final class - followed by personalised feedback from the coaches present.
